

Shoe Sizing Guidelines

Style	Capezio Sizing Suggestions	Child to Adult Size Conversion	Relationship Manager Fit Guideline	Relationship Manager Sizing Tip
<i>Juliet 2028</i>	1/2 size larger than street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits a little small and narrow. Canvas material does not stretch much, will give over time and mold to foot.	Same as street size to 1/2 size up for snug fit. 1/2 - full larger for wiggle room.
<i>Juliet 2028C</i>	1/2 size larger than street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits small and narrow. Canvas material does not stretch much, but will give over time and mold to foot.	1/2 size to full size larger than street shoe to allow for growing room.
<i>Cobra 2033</i>	1/2 size larger than street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits very close to street shoe size. Leather shoe will stretch. Will take time to take shape of both feet.	Same as street shoe or 1/2 size up or 1/2 size down depending on preference.
<i>Cobra 2033C</i>	Same as street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits very close to street shoe size. Leather shoe will stretch. Will take time to take shape of both feet.	1/2 size larger than street shoe to allow for growing room.
<i>Daisy 205</i>	Same as street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits wide. Leather shoe will stretch. Will take time to take shape of both feet.	1/2 to full size larger for growing room. Same size for narrow foot.
<i>Daisy 205C</i>	Full size larger than street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits wide. Leather shoe will stretch. Will take time to take shape of both feet.	1/2 to full size larger than street shoe.
<i>N625C</i>	Same as street shoe size.		Fits very close to street shoe size. This shoe is not real leather and will not give or stretch much.	No larger than 1/2 size up unless child has wide foot or plans on wearing socks.
<i>3800</i>	1/2 size larger than street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits very close to street shoe size. The leather will feel stiff at first but over time it will give and stretch slightly.	Same as street shoe size. 1/2 size up for wide foot.
<i>3800C</i>	1/2 size larger than street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits very close to street shoe size. The leather will feel stiff at first but over time it will give and stretch slightly.	No larger than 1/2 size up unless child has wide foot or plans on wearing socks.
<i>550</i>	1/2 size larger than street shoe size.	We begin carrying this shoe at an adult size 4 which will fit child size 2. (2 size conversion)	Fits small. This is not a real leather shoe. Material will give some, but not as much as real leather.	1/2 size to full size larger than street shoe.
<i>CG16</i>	Same as street shoe size.	We begin carrying this shoe at an adult size 4 which will fit child size 2. (2 size conversion)	Fits very close to street shoe size. Soft leather shoe. Will begin to stretch and mold to the foot right away.	Same as street shoe size. 1/2 size up for wide foot. 1/2 size down for snug fit.
<i>CG17</i>	Same as street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits very close to street shoe size. Not a real leather shoe. Material will give some, but not like real leather.	Same size to 1/2 size larger than street shoe size.
<i>CG17C</i>	Same as street shoe size.	After a child size 2.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits very close to street shoe size. Not a real leather shoe. Material will give some, but not like real leather.	1/2 size to full size larger than street shoe to allow for growing room.
<i>CG18</i>	Same as street shoe size.		Fits very close to street shoe size. This is real leather and will stretch over time.	Same size as street shoe.
<i>CP05</i>	Same as street shoe size.		Fits very close to street shoe size. This is real leather and will stretch over time.	Same size as street shoe.
<i>DS11</i>	Full size larger than street shoe size.	Most children will need adult sizes in this shoe. This will be a 2 size conversion.	Fits a little small. Materials will be a little stiff at first, but will break in nicely over time.	1/2 size to full size larger than street shoe.
<i>DS11C</i>	Order 1.5 - 2.5 sizes up from street shoe.	No need to convert sizes, going up the 2 and half sizes from street shoe already does this.	Fits VERY small.	2.5 sizes up from street shoe (this will put most children into adult sizes).
<i>EJ1</i>	Same as street shoe size.	After a child size 1.5 you will need to convert to adult sizes. This will be a 2 size conversion.	Fits slightly small. This is a real leather shoe and will stretch as the shoe is worn.	Same size to 1/2 size larger than street shoe size. Full size up for wide feet.
